Alexandria, VA 22313-1450

INTERVIEW SUMMARY

Examiner Chu is thanked for the interview held on May 21, 2008. The substance of the interview included a discussion of the subject matter recited in claim 1. Mr. Hunter cited to an exemplary implementation disclosed in the specification with respect to Figures 4A-C. Examiner Chu expressed that he would consider the claimed subject matter and contact Mr. Hunter regarding further action to be taken. No agreement was reached.

Examiners Chu and Bella are thanked for the follow-up interview held on May 29, 2008. The substance of the interview was directed to claim 1. Examiner Bella suggested amending claim 1 to recite "different fractional pixel locations." Examiner Bella also questioned whether claim 1 recites a tangible result, which Mr. Hunter explained was satisfied by storing the spatially quantized representation of the filter. The Examiners indicated that the claimed subject matter would be further considered and that Examiner Chu would conduct an additional search. It also was indicated that Mr. Hunter would be contacted regarding further action in the case. No agreement was reached.

Examiner Chu then called Mr. Hunter on June 2, 2008, to propose an examiner's amendment that would put the application in condition for allowance. Mr. Hunter authorized this proposed examiner's amendment.

Respectfully submitted,

Date: Aug. 12, 2008

William E. Hunter
